

Privacy Policy TuneKey® app June 2015

TuneKey does not collect personal information from you

TuneKey does not collect and save typed text or personal data. General anonymized information about the use of the app and/or associated services can be collected. This information can possibly be collected by means of analytics functionality in the app. It can include the improvement of the operation of the app.

What TuneKey does with information it obtains

- TuneKey needs information for the operation of the app and/or associated services.
- To improve its products and services in a general manner, using aggregated and anonymous reporting.
- To understand requirements and to provide better service.

Third parties sales platforms such as the App Store of Apple Inc. or Google Play of Google Inc., through which platforms this app is made available and downloaded, warn that typed text and information from the keyboard could be made available. We hereby inform you that TuneKey does not collect and save typed text or personal data.

Safety

TuneKey considers it important that information is secure. TuneKey has technical and organizational measures in place to protect and safeguard information and data.

Third parties and sharing information

TuneKey will not sell personal information and data to third parties and/or will not use such information and data for third parties.

Some services may be offered to users in conjunction with affiliates or third-party suppliers, and TuneKey can share information with third-party suppliers involved for the operation of the app on behalf of TuneKey.

TuneKey may change this privacy policy and the latest version is available on the website of TuneKey (www.tunekey.info).
